

Britain's leading trailer manufacturer

MANUFACTURERS STATEMENT ON TRAILER SPEED (Tempo 100)

We confirm that all new trailers manufactured by Ifor Williams Trailers Ltd, and which are approved to EC 2007/46, are suitable to be towed at 100km/h on smooth surfaced roads.

The following should be considered by the operator of the trailer when towing;

The towing speed of any trailer is restricted by a number of factors, these include but are not limited to:-

1. The capability of the towing vehicle.
2. The stability, balance and position of the payload.
3. The nose/coupling load exerted on the towing vehicle.
4. The road surface condition.
5. The environmental/weather conditions.
6. Local and National legislation.
7. Condition and correct inflation of tyres.

All tyres originally fitted to trailers manufactured to EC2007/46 by Ifor Williams Trailers Ltd have a minimum speed rating of 100km/h when used within the stated load limits.
